Allowable Subject Matter

Page 2

1. Claims 1-25 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the 2.

prior art of record fails to teach the use of a window assembly having a movable sash including a

frame having and end portion with a projecting member positioned adjacent a projecting member

formed on an end rail of the movable sash member positioned within the frame; wherein the

projections prevent movement of the sash in a direction transverse to the upward and downward

movement of the sash. The closest prior art of record is U.S. Patent #5,560,149 to LaFEVRE.

LaFEVRE discloses adjacent projections formed on the meeting rail or middle section of the

frame and upper end portion of the sash, which limits or guides the downward travel of the sash

and has little or nothing to do with limiting movement in a direction transverse to the sash.

Any inquiry concerning this communication or earlier communications from the examiner 3.
